

VINEYARDS

Post Harvest and Cover Crop Preparation

Now another vintage has come and gone, our attention will turn to management of next season's crop. A very important issue to consider will be the addition of Post Harvest Nutrition.

Nutritional requirements will vary greatly depending on current soil nutritional status, future cropping objectives and vineyard history.

Fertico offer a range of alternative Organic Based Fertilisers.

These are manufactured from a blend of natural composted manure fortified with inorganic fertilisers including trace elements, in hard granulated form, for ease of application.

KikStart and KikStart Extra, N-Forcer & Pasture Blend are some of the standard range, with custom made vineyard mixes available to suit specific soil requirements. These can be broadcast over the whole area or banded.

Cover crops can be sown with a blend of the Fertico Organic Based products and NutriSmart for an efficient, economical and environmentally friendly good establishment.

NutriSmart is a unique soil nutrition alternative based on the biological activity of six specialized yeasts contained in an easy to use carbon granule. It has the ability to efficiently make available, soil and applied nutrients for plant growth.

It can be used on a broad range of crops and specifically with cereal crops providing the ability to grow comparable yields and quality.

ORGANIC BASED CROPPING & PASTURE

Kick Start

General purpose, organic based, low odour, cost effective granule for use on a broad range of applications. Home garden, vines and tree crops, fertiliser blends. (OM 95%)

N 3% P 2.5% K 1.5% S 3% Ca 5% Mg 0.5% Cu 0.02% Zn 0.03% Mn 0.05% Fe 0.1% Vines 100-500 kg/ha)

Kick Start Extra

A concentrated homogeneous organic based granule offering a blend of organic, mineral and inorganic inputs for the higher organic nutrient requirements for commercial growers.

N 4% P 3% K 1.5% S 3% Ca 7% Mg 2% Cu 0.01% Zn 0.07% Mn 0.08%

Kick Start Extra Plus SOP

Well balanced high organic material based, general purpose fertiliser in hard granule which is easy to spread. Added Sulphate of potash and natural organic trace elements.

N 4% P 3% K 2% S 5% Ca 7% Mg 0.41% Cu 0.02% Zn 0.05% Mn 0.06%

N-Forcer

Concentrated, low odour, organic based granule, good levels of Nitrogen and Phosphorous and trace elements. (OM 72%)

N 6.4% P 3.5% K 0.3% S 4.3% Ca 6% Mg 0.5% Cu 0.5% Zn 0.05% Fe 1% Mo 0.005% Vegetables (500-1000kg/ha) orchards & Vines (600-1200kg/ha)

Organic Based Pasture

Slow & quick release NPKS and trace elements blended into an easy granule for sustained growth and soil conditioning. (OM 75%)

N 3% P 4% K 3.00 S 3.00 Ca 6.00 Mg 2.00 Cu 0.01 Zn 0.03 Mn 0.01 Fe 0.10 Annual pasture 150-300kg per Ha perennial pasture 200kg/ha.

Organic Based Super

Excellent source of phosphorous in soluble, organic and mineral forms with starter levels of Nitrogen, Potassium, trace elements and good level of Sulphur.

N 2% P 7% K 1.5 S 5.0 Ca 5.0 Mg 0.6 Cu 0.1 Zn 0.03 Mn 0.7 Fe 0.07 (OM 60%) Cover crop 200-300kg/ha Cropping 150-300kg/ha Pasture 150-250kg/ha

Organic Based Cropping

Balance nutrition for cereals and oil seeds and recommended for high leaching or Phosphorous fixing soils. Good input of Sulphur. (OM 74%)

N 6.00 P 6.00 K 1.00 S 7.00 Ca 5.00 Mg 0.06 Cu 0.01 Zn 0.03 Mn 0.07 Fe 0.10 Cover crop 200-300kg/ha Cropping 150-300kg/ha
